

ARCHITECTURAL TECHNOLOGIST (RETAIL PROJECTS)

Purpose

HLP UK Ltd are looking to recruit a suitably experienced Architectural Technologist to work as part of a team delivering architectural and project management services for refurbishment projects primarily in the retail sector.

The successful candidate will provide architectural support to our retail client portfolio, providing a flexible and responsive service and will be expected to work on other projects as and when the need arises, including carrying out measured surveys and the production of acquisition and condition reports. Candidates with an interest in 3D modelling, Revit and BIM are encouraged.

Reporting to the Directors, the successful candidate will be personable with a proactive attitude and be prepared to contribute when required in all sectors of the business. The role is client facing and the post holder will be responsible for ensuring continued client satisfaction.

This is a full time position for a fixed term of 6 months, primarily based out of our Hednesford premises, with some work from home due to the current COVID situation.

Duties to include:

Site Survey and Existing Record:

- Detailed floor and roof plans
- Internal and external elevations, sections and sectional elevations
- Reflective ceilings plans and services.
- Production of existing layout drawings, elevations, sections in plan and model formats from existing drawing and survey notes
- Condition and Acquisition Reports

Drawing Preparation and Control:

- Production of feasibility and scheme design drawings
- Production of detailed technical proposal drawings, models and visuals using AutoCAD, Sketch-Up and other similar packages
- Responsible for the quality of drawing production
- Client Liaison
- Quality Assurance of Drawing/Model production

Other Duties

- Pro-active liaison with Clients and their representatives
- Liaison with internal team
- production and management of project programs and management of budget and expenditure reports
- Preparation of project documentation, including specifications and precontract documents
- Preparation and submission of statutory approvals, dealing with enquiries and obtaining consents
- Managing office based and site projects
- Any other duties or requirements of the company or clients
